STACKABLE

RECYCLED
MATERIAL

RECYCLABLE

Description

Frame

Made of polypropylene resin.

Reinforced with mineral filler and a special formulation with UV treatment.

Screws

Manufactured in AISI 304 stainless steel that offers great resistance to corrosion in marine environments.

Accessories

Caps, studs and regulators made of polypropylene resin resistant to UV rays.

Tabletop

16 mm thick Werzalit board.

Functionality

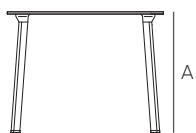

Stackable table to reduce storage space.

Maintenance plan

Weekly

Visual check of the general condition, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

Monthly

Check the structural strength and stability.
Check the condition of the caps and studs.

Annual

Replace any worn or damaged parts.

Wintering and storage

Clean with soapy water and a soft cloth.
Remove damp stains, sand and seawater.
Store vertically in a dry place in stacks of 10 units.

Observations

- Always use Balliu spare parts.
- Balliu does not manufacture parts for other brands.
- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Do not use aggressive chemicals to clean the product.
- Always use products with a neutral pH.
- Use a soft cloth to clean the product.
